

## Foresters 'Thrills and Spills' homework project

### Marvellous Models

### Due in Friday 18<sup>th</sup> May

- You need to create a fairground/theme park inspired model to showcase on Friday 18<sup>th</sup> May. You can create it any way you like, using whatever materials you have and it can be based on any ride or stall you would find at a theme park or fairground.
- It doesn't have to move; it can be a static model! But if you can get it moving, that would be fantastic!
- The models will only be in school for one day. Bring them into school on Friday 18<sup>th</sup> May. We will showcase our work Friday morning and then you can take it home that day. This is due to lack of space in our classroom and it saves your amazing models getting damaged!

Have fun! 😊
