

The Crockerton CE School Oak Tree

We are always working together to grow towards the light, within our community.

The animals that live in and visit the oak tree represent the national community of Britain and the global community. These are people who inspire us, charities for whom we raise money, artists, authors, musicians, sports people, scientists. Those who we learn and grow from and welcome to our community.

The acorns are our school values and rules. They have grown from all we do and believe as a school community, chosen by the pupils, staff, governors and parents.

Now ready to become part of the wider community, the leavers are the leaves. Their achievements will leave a lasting impression on the school.

The branches represent the wider school community, branching out. Our families, the people who live in our villages and towns. We are always looking to create stronger links to our community.

The trunk shows the pupils at the centre of the school community. They hold the school up, standing tall and proud. It is crucial that they are provided with an environment in which they can grow and develop the skills needed to thrive.

The staff and governors are the roots of the tree. They keep the school rooted and provide stability, allowing the school to grow strong. Constantly reaching for new resources and opportunities.

The ground in which the oak is rooted, represents the natural world around us in which we grow. Caring for the natural world is key to our community health and wellbeing.
